Plan your team’s work, week by week.

Prepweek is an online team planner. Everyone’s work sits on one shared timeline: drag a block onto a person, stretch it over the days it takes, and the whole team sees the change live, on desktop and phone. Plans are priced by how many people you plan for; every plan has every feature.

Plans

Prices in euro, per workspace; Paddle works out VAT or sales tax for your country at checkout. Yearly billing costs ten months: two months free. A person is a row you plan for, not a login: anyone you share with can sign in and view at no cost.
